

I oppose Sinclair's pressure to aire a program that clearly- indisputedly- communicates a heavily biased political agenda, taking advantage of the trust Americans have in true and honest television. Not only are Sinclair's actions illegal, but it just looks bad, even hedgeing on brainwashing! People are already suspicious of the media- let's not add fuel to the fire. Shame on them, shame on the stations, shame on us for not providing a fair playing field for the upcoming elections! I expect better. I assume you at the FCC do, also.
